

Microsoft M365 Playground for Thunai Bot

Python with Fast API for data collection (Swagger)

A screenshot of a browser window showing the Thunai Culture OS API documentation. The page displays the API's endpoints for managing users, such as GET /api/v1/users/ for getting users and PUT /api/v1/users/{user_id} for updating a user. The browser's address bar shows the URL as 127.0.0.1:8000/docs.
